Staffordshire, WS7 1JP

Introduction

to our beauty department

Our expert team are keen to listen to your requirements as well as being happy to advise on all aspects of beauty and nail care.

Our aim is to provide a service to you using quality products and professional expertise in a relaxed and friendly environment helping you to have an experience that you will want to repeat time and time again.

dermalogica®

Before each facial a “FACE MAPPING” prescription will be carried out. This is unique to Dermalogica and is a revolutionary approach to skin analysis. Your therapist will use a technique to analyze every aspect of your skin which will not only enhance the effectiveness of every treatment but also make the prescription of a home care regime as

focused on your actual needs as possible. “FACE MAPPING” divides the face into fourteen zones, the therapist will conduct an inch-by-inch analysis of the face giving an objective view of the skin's condition as well as an indication of the underlying health issues that might be affecting it. It will provide the information to prescribe a treatment specifically designed to address your personal skin concerns.
