BEAUTY AT BOYD'S

Face Mapping

Before each facial, a 'FACE MAPPING' PRESCRIPTION will be carried out. This is unique to Dermalogica and is a revolutionary approach to skin analysis. Every aspect of your skin is analysed which enhances the effectiveness of every treatment and focuses a home care regime to your personal skin care needs.

'FACE MAPPING' divides the face into fourteen zones. A therapist conducts an inch-by-inch analysis of the face giving an objective view of the skins condition as well as an indication of the underlying health issues that might be effecting it. Face mapping will provide the information to prescribe a treatment specifically designed to address your personal skin conditions. *Our team are keen to listen to your requirements as well as being happy to advise on all aspects of beauty and nail care.*

Our aim is to provide a service to you using quality products and professional expertise in a relaxed and friendly environment helping you to have an experience that you will want to repeat time and time again.

Our Dermalogica expert has been intensively trained to the highest level. Your skin is part of the face you present to the world. Great skin is not about beauty, it's about getting your healthiest skin ever

Book a **FREE** consultation with one of our therapists to discuss your requirements.
